

Each time you visit a hospital, physician, or other healthcare provider, a record of your visit is made. Typically, this record contains your symptoms, examination and test results, diagnoses, treatment, a plan for future care or treatment and billing-related information. This notice applies to all of the records of your care generated by the hospital, whether made by hospital personnel, agents of the hospital, or your personal doctor. Your personal doctor may have different policies or notices regarding the doctor's use and disclosure of your health information created in the doctor's office or clinic.

Our Responsibilities:

We are required by law to maintain the privacy of your health information and provide you a description of our privacy practices. We will abide by the terms of this notice.

Uses and Disclosures:

[How we may use and disclose Health Information about you.](#)

The following categories describe examples of the way we use and disclose health information:

For Treatment: We may use health information about you to provide you treatment or services. We may disclose health information about you to doctors, nurses, technicians, health students, or other hospital personnel who are involved in taking care of you at the hospital. For example: a doctor treating you for a broken leg may need to know if you have diabetes because diabetes may slow the healing process. Different departments of the hospital also may share health information about you in order to coordinate the different things you may need, such as prescriptions, lab work, meals, and x-rays. We may also provide your physician or a subsequent healthcare provider with copies of various reports that should assist him or her in treating you once you're discharged from this hospital.

For Payment: We may use and disclose health information about your treatment and services to bill and collect payment from you, your insurance company or a third party payer. For example, we may need to give your insurance company information about your surgery so they will pay us or reimburse you for the treatment. We may also tell your health plan about treatment you are going to receive to determine whether your plan will cover it.

For Health Care Operations: Members of the medical staff and/or quality improvement team may use information in your health record to assess the care and outcomes in your case and others like it. The results will then be used to continually improve the quality of care for all patients we serve. For example, we may also combine health information about many patients to evaluate the need for new services or treatment. We may disclose information to doctors, nurses, and students for educational purposes. And we may combine

health information we have with that of other hospitals to see where we can make improvements. We may remove information that identifies you from this set of health information to protect your privacy.

We may also use and disclose health information:

- To business associates we have contracted with to perform the agreed upon service and billing for it;
- To remind you that you have an appointment for medical care;
- To assess your satisfaction with our services;
- To tell you about possible treatment alternatives;
- To tell you about health-related benefits or services;
- To contact you as part of fundraising efforts;
- To inform Funeral Directors consistent with applicable law;
- For population based activities relating to improving health or reducing healthcare costs; and
- For conducting training programs or reviewing competence of healthcare professionals.
- When disclosing information, primary appointment reminders and billing/collections efforts, we may leave messages on your answering machine or voice mail.

Business Associates: There are some services provided in our organization through contracts with business associates. Examples include physician services in the emergency department and radiology, certain laboratory tests, and a copy service we use when making copies of your health record. When these services are contracted, we may disclose your health information to our business associate so that they can perform the job we've asked them to do and bill you, your insurance company or a third- party payer for services rendered. To protect your health information, however, we require the business associate to appropriately safeguard your information.

Directory: We may include certain limited information about you in the hospital directory while you are a patient at the hospital. The information may include your name, location in the hospital, your general condition (e.g., good, fair) and your religious affiliation. This information may be provided to members of the clergy and, except for religious affiliation, to other people who ask for you by name. If you would like to opt out of being in the facility directory please request the Opt Out Form from the admission staff or Facility Privacy Official.

Individuals Involved in Your Care or Payment for Your Care:

We may release health information about you to a friend or family member who is involved in your medical care or who helps pay for your care. In addition, we may disclose health information about you to an entity assisting in a disaster relief effort so that your family can be notified about your condition, status and location.

Research: We may disclose information to researchers

when an institutional review board that has reviewed the research proposal and established protocols to ensure the privacy of your health information has approved their research and granted a waiver of the authorization requirement.

Future Communications: We may communicate to you via newsletters, mail outs or other means regarding treatment options, health related information, disease-management programs, wellness programs, or other community based initiatives or activities our facility is participating in.

Organized Health Care Arrangement: This facility and its medical staff members have organized and are presenting you this document as a joint notice. Information will be shared as necessary to carry out treatment, payment and healthcare operations. Physicians and caregivers may have access to protected health information in their offices to assist in reviewing past treatment as it may affect treatment at the time.

Affiliated Covered Entity: Protected health information will be made available to hospital personnel at local affiliated hospitals as necessary to carry out treatment, payment and health care operations. Caregivers at other facilities may have access to protected health information at their locations to assist in reviewing past treatment information as it may affect treatment at this time. Please contact the Facility Privacy Official for further information on the specific sites included in this affiliated covered entity.

As required by law, we may also use and disclose health information for the following types of entities, including but not limited to:

- Food and Drug Administration
- Public Health or Legal Authorities charged with preventing or controlling disease, injury or disability
- Correctional Institutions
- Workers Compensation Agents
- Organ and Tissue Donation Organizations

Law Enforcement/Legal Proceedings: We may disclose health information for law enforcement purposes as required by law or in response to a valid subpoena.

State Specific Requirements: Many states have requirements for reporting including population-based activities relating to improving health or reducing healthcare costs. Some states have separate privacy laws that may apply additional legal requirements. If the state privacy laws are more stringent than federal privacy laws, the state law preempts the federal law.

- **Inspect and Copy:** You have the right to inspect and obtain a copy of the health information that may be used to make decisions about your care. Usually, this includes medical and billing records, but does not include psychotherapy notes. We may deny your request to inspect and copy in certain very limited circumstances. If you are denied access to health information, you may request that the denial be reviewed. Another licensed healthcare professional chosen by the hospital will review your request and the denial. The person conducting the review will not be the person who denied your request. We will comply with the outcome of the review.

You have the right to request an amendment for as long as the information is kept by or for the hospital. We may deny your request for an amendment and if this occurs, you will be notified of the reason for the denial.

- **Request Confidential Communications:** Request Confidential Communications: You have the right to request that we communicate with you about medical matters in a certain way or at a certain location. For example, you can ask that we contact you at work instead of your home.
